INSTRUCTIONS FOR FILLING APPLICATION FORM

1. GENERAL INSTRUCTIONS

- Please read the terms of the Key Information Memorandum and the **Statement of Additional Information / Scheme Information Document** carefully before filling the Application Form. Investors should also appraise themselves of the prevailing local structure on the date of submitting the Application Form. Investors are deemed to have accepted the terms subject to which this offer is being made and bind themselves to the terms upon signing the Application Form and tendering payment.
- Application form should be completed in English and in BLOCK LETTERS. Please tick in the appropriate boxes wherever applicable.
- The signature should be in English or in any of the Indian languages specified in the eighth schedule of the Constitution of India. Thumb Impressions must be attested by a magistrate or a notary public or a special executive magistrate under his/her official seal. Applications by minors should be signed by the guardians. In case of H. U. F., the Karta should sign on behalf of the H. U. F.
- The application complete in all respects along with the cheque / demand draft must be submitted to the nearest designated Investor Service Centre. Applications incomplete in any respect or not accompanied by cheque or demand draft of the amount payable are liable to be rejected and the money paid will be refunded without interest.
- No receipt will be issued for the application money. The designated Investors Service Centre will stamp and return the acknowledgment slip in the application form, to acknowledge receipt of the application.
- All cheques and bank drafts must be drawn in favour of "Scheme Name" and crossed "Account Payee Only". A separate cheque or bank draft must accompany each application (each Scheme).
- Investors already holding a folio in Birla Sun Life Mutual Fund can provide their existing Folio Number and Name of applicant(s) corresponding to the said folio. It is the responsibility of the investor to ensure correctness of such details provided. The personal details and Bank Account details as registered in the existing folio number as provided would apply to the said investment and the registered details would prevail over any conflicting information furnished in this form. The AMC reserves the right to assign any of the existing Folio Number of the investor against multiple applications and / or subsequent purchases under this new application form lodged, with identical mode of holding and address and such other criteria and integrity checks as may be determined by the AMC from time to time.

2. INVESTOR PARTICULARS

- Name and address must be given in full. P.O. Box address is not sufficient. In case of NRIs/ FII investors an overseas address must be provided.
- On behalf of Minor/ Accounts:** Name of Guardian must be mentioned if investments are being made on behalf of a minor. Date of birth is mandatory in case of minor. - Bank Details:** In order to protect the interest of investors from fraudulent encashment of cheques, the SEBI Regulations have made it mandatory for investors to mention in their application / Redemption request, the bank name and account number.
- PAN Details:** It is compulsory for all investors to quote their Permanent Account Number (PAN) and submit copy of the PAN card issued by the Income Tax Department, irrespective of the amount of investment, while making an application for Purchase of Units. In case of joint applications, PAN details of all investors should be submitted. In case the investor making the application is a minor, PAN details of the Guardian must be submitted. Investors residing in the state of Sikkim are exempt from the mandatory requirement of PAN proof submission, however sufficient documentary evidence shall have to be submitted to Birla Sun Life Mutual Fund for verifying that they are residents of State of Sikkim. Investors (being individuals) applying for Micro SIP registrations are exempt from mandatory requirement of PAN submission. For further details on Micro SIP, documents required etc please refer instructions in SIP Application Form.

4. KNOW YOUR CUSTOMER (KYC)

- According to guidelines issued by SEBI under "The Prevention of Money Laundering Act, 2002", Mutual Funds are required to follow enhanced know your customer (KYC) norms.
- Birla Sun Life Asset Management Company Limited (BSLAMC) has made arrangements with CDSL Ventures Limited ("CVL"), to process KYC compliance. Investors can visit branches of BSLAMC or may visit www.birlasunlife.com, www.amfiindia.com and www.cdslindia.com to know detailed procedure for KYC compliance. On submission of KYC application alongwith the prescribed documents "KYC Acknowledgement letter" will be issued by CVL to the applicant.
- Effective January 01, 2011 it is mandatory for all category of investors to provide a copy of KYC Acknowledgement letter issued by CVL for all investment transactions (excluding Micro SIP) made on or after January 01, 2011, irrespective of amount of investment.**
- To further clarify, the above category of investors shall include (i) their constituted Power of Attorney (POA) holder, in case of investments through a POA; (ii) each of the applicants, in case of investments in joint names; and (iii) Guardian in case of investments on behalf of minor.
- Applications without KYC Acknowledgement letter for the specified category of investors are liable to be rejected. Provided further, where it is not possible to verify the KYC compliance status of the investor at the time of allotment of units, the BSLAMC shall verify the KYC compliance status of the investor within a reasonable time after the allotment of units. In the event of non compliance of KYC requirements as prescribed by the BSLAMC, the BSLAMC reserves the right to freeze the folio of the investor(s) for any kind of transactions or affect mandatory redemption of unit holdings of the investors at the applicable NAV, subject to payment of exit load.
- Investors who have obtained MIN allotment letter by submitting the PAN copy are deemed to be KYC compliant. Investors should note that on completion of KYC Compliance all details of the investor in the Mutual Fund records will be replaced by the details as given in KYC Application Form by the investor to the CVL. Any change in this details like change of Name / Address / Status / Signature, etc. should be given by investor directly to CVL in the prescribed manner.

Investors are requested to note that only cheques of value of upto ₹ 1 lacs shall be accepted under this 'Speed Clearing' facility. Further, the list of Speed Clearing-enabled bank branches are hosted on the website of the RBI under the link http://www.rbi.org.in/Scripts/bs_viewcontent.aspx?Id=2016.
- Payment through Stock invest, outstanding cheques, cash and third party payments will not be accepted.
- For all mode of payments, details of source account, source bank name and source branch name should be mentioned.
- Restriction on acceptance of Third Party Payment:**
 - Pursuant to the AMFI Best Practice Guidelines circular on 'Risk mitigation process against Third-Party Cheques in mutual fund subscriptions' read with compliance with 'Know your Customer (KYC) norms under Prevention of Money Laundering Act, 2002 (PMLA), Birla Sun Life Asset Management Company Limited (BSLAMC) / Birla Sun Life Mutual Fund (BSLMF) shall not accept applications for subscriptions of units accompanied with Third Party Payments, except in the cases as enumerated below in para (c).
 - "Third Party Payment" means payment through an instrument issued from a bank account other than that of the beneficiary investor. In case of payments from a joint bank account, the first named investor/holder of the mutual fund folio has to be one of the joint holders of the bank account from which payment is made.
 - BSLAMC shall not accept subscriptions accompanied with Third Party Payments except in the following exceptional situations subject to the BSLAMC reserves the right to freeze the folio of the investor(s) for any kind of transactions:
 - Payment by Parents/Grand Parents/Related persons on behalf of a minor in consideration of natural love and affection or as gift for a value not exceeding ₹ 50,000/- (each regular purchase or per SIP installment) However, this restriction will not be applicable for payment made by a guardian whose name is registered in the records of Mutual Fund in that folio as a guardian.
 - Payment by Employer on behalf of employee under Systematic Investment Plans (SIP) through Payroll deductions.
 - Custodian on behalf of an FII or a client.
 - In case of 'exceptional situations' mentioned above, investors are required to submit following documents/declarations alongwith the application form without which such applications will be rejected/not processed/refunded:

- Mandatory KYC for all Investors (guardian in case of minor) and the person making the payment i.e. third party. In order for an application to be considered as valid, investors and the person making the payment should attach their valid KYC Acknowledgement Letter to the application form.
- A separate, complete and valid 'Third Party Payment Declaration Form', inter alia, containing the details of the bank account from which the payment is made and the relationship with the investor(s). The declaration has to be given by the person making the payment i.e. Third Party. Please contact the nearest Investor Service Centre (ISC) of BSLAMC or visit our website www.birlasunlife.com for the said Declaration Form. BSLAMC/BSLMF shall verify the source of funds to ensure that funds have come from the drawer's account only.

- Investors are requested to note that, in case of:

- Payment by Cheque:** An investor at the time of his/her purchase must provide the details of his pay-in bank account (i.e. account from which a subscription payment is made) and his pay-out bank account (i.e. account into which redemption/dividend proceeds are to be paid). If the name/bank account number is not pre-printed on the cheque and signature on the cheque does not match with signature on the application, then the first named applicant/investor should submit any one of the following documents:
 - a copy of the bank passbook or a statement of bank account having the name and address of the account holder and account number;
 - a letter (in original) from the bank on its letterhead certifying that the investor maintains an account with the bank, along with information like bank account number, bank branch, account type, the MICR code of the branch & IFSC Code (where available).

* Investors should also bring the original documents along with the documents mentioned in (a) above to the ISCs/Official Points of Acceptance of BSLMF. The copy of such documents will be verified with the original documents to the satisfaction of the BSLAMC/BSLMF. The original documents will be returned across the counter to the investor after due verification.

* In respect of (b) above, it should be certified by the bank manager with his/her full signature, name, employee code, bank seal and contact number.

Investors should note that where the bank account numbers have changed on account of the implementation of core banking system at their banks, any related communication from the bank towards a change in bank account number should accompany the application form for subscription of units.

- Payment by Pre-funded instrument:** (1) If the subscription is settled with pre-funded instruments such as Pay Order, Demand Draft, Banker's cheque, etc., a Certificate (in original) from the Issuing banker must accompany the purchase application stating the Account holder's name and the Account number which has been debited for issue of the instrument. The account number mentioned in the Certificate should be a registered bank account or the first named unit holder should be one of the account holders to the bank account debited for issue of such instruments. Investors may also submit a copy of the acknowledgement from the bank, wherein the instructions to debit carry the bank account details and name of the investor as an account holder, or a copy of the passbook/bank statement evidencing the debit for issuance of a DD, provided bank account number has to match with the details provided in the application form and name should match with the name of the first named unit holder.
 (2) A pre-funded instrument issued by the Bank against Cash shall not be accepted for investments of ₹ 50,000/- or more. This also should be accompanied by a certificate from the banker giving name, address and PAN (if available) of the person who has requested for the payment instrument. The name mentioned on the Certificate should match with the name of the first named unit holder and certificate must state such investor's bank account number and PAN as per bank record, if available.
 The Certificate(s) mentioned in (1) and (2) above should be duly certified by the bank manager with his/her full signature, name, employee code, bank seal and contact number.

- Payment by RTGS, NEFT, ECS, Bank transfer, etc:** A copy of the instruction to the bank stating the account number debited must accompany the purchase application. The account number mentioned on the transfer instruction copy should be a registered bank account or the first named unit holder should be one of the account holders to the bank account.

In case the application for subscription does not comply with the above provisions, BSLAMC/BSLMF retains the Sole and absolute discretion to reject/not process such application and refund the subscription money and shall not be liable for any such rejection.

6. NRI INVESTORS

- A minor can be nominated and in that event, the name and address of the guardian of the minor nominee shall be provided by the unit holder. The Applicant is advised that, in case of Single Holding, the Guardian to a Minor Nominee should be a person other than the Applicant.
- Nomination can also be in favour of the Central Government, State Government, a local authority, any person designated by virtue of these offices or a religious or charitable trust.
- The Nominee shall not be a trust (other than a religious or charitable trust), society, body corporate, partnership firm, Karta of Hindu Undivided Family or a Power of Attorney holder. A non-resident Indian can be a Nominee subject to the exchange controls in force, from time to time.
- Nomination shall not be allowed in a folio/account held on behalf of a minor.
- Nomination in respect of the units stands rescinded upon the transfer of units.
- Transfer of units in favour of a Nominee shall be valid discharge by the AMC against the legal heir.
- The cancellation of nomination can be made only by those individuals who hold units on their own behalf singly or jointly and who made the original nomination.
- On cancellation of the nomination, the nomination shall stand rescinded and the AMC shall not be under any obligation to transfer the units in favour of the Nominee.
- The nomination details as registered with the Depository Participant shall be applicable to unit holders who have opted to hold units in Demat mode.
- Nomination shall be mandatory for new folios/accounts opened by individuals especially with sole/single holding and no new folios/accounts for individuals in single holding shall be opened without nomination. However, in case investors do not wish to nominate must sign separately confirming their non-intention to nominate, failing which the form may be rejected at the discretion of the AMC/Mutual Fund.**

3.		3.	

TERMS & CONDITIONS

- Unit holder can nominate (in the manner prescribed under the SEBI Regulations), maximum upto 3 person(s) in whom the Units held by him/her shall vest in the event of his/her death. It shall be mandatory to indicate clearly the percentage of allocation / share in favour of each of the nominees against their name and such allocation / share should be in whole numbers without any decimals making a total of 100 percent. In the event of the Unitholders not indicating the percentage of allocation / share for each of the nominees, the AMCs, by invoking default option shall settle the claim equally amongst all the nominees.
- Nomination made by unitholder shall be applicable for investments in all the Schemes in the folio or account and every new nomination for a folio or account will overwrite the existing nomination. Thus, a new nomination request will imply simultaneous cancellation of existing nomination and request for fresh nomination.
- The nomination can be made only by individuals applying for / holding units on their own behalf singly or jointly in favour of one or more persons. Non-individuals including society, trust, body corporate, partnership firm, Karta of Hindu Undivided Family, holder of Power of Attorney cannot nominate. - In case a folio has joint holders, all joint holders should sign the request for nomination / cancellation of nomination, even if the mode of holding is not "joint".
- A minor can be nominated and in that event, the name and address of the guardian of the minor nominee shall be provided by the unit holder. The Applicant is advised that, in case of Single Holding, the Guardian to a Minor Nominee should be a person other than the Applicant.
- Nomination can also be in favour of the Central Government, State Government, a local authority, any person designated by virtue of these offices or a religious or charitable trust.
- The Nominee shall not be a trust (other than a religious or charitable trust), society, body corporate, partnership firm, Karta of Hindu Undivided Family or a Power of Attorney holder. A non-resident Indian can be a Nominee subject to the exchange controls in force, from time to time.
- Nomination shall not be allowed in a folio/account held on behalf of a minor.
- Nomination in respect of the units stands rescinded upon the transfer of units.
- Transfer of units in favour of a Nominee shall be valid discharge by the AMC against the legal heir.
- The cancellation of nomination can be made only by those individuals who hold units on their own behalf single or jointly and who made the original nomination.
- On cancellation of the nomination, the nomination shall stand rescinded and the AMC shall not be under any obligation to transfer the units in favour of the Nominee.
- The nomination details as registered with the Depository Participant shall be applicable to unitholders who have opted to hold units in Demat mode.
- Nomination shall be mandatory for new folios/accounts opened by individuals especially with sole/single holding and no new folios/accounts for individuals in single holding shall be opened without nomination. However, in case investors do not wish to nominate must sign separately confirming their non-intention to nominate, failing which the form may be rejected at the discretion of the AMC/Mutual Fund.**

In case the investor fails to specify his preference of Option/Facility for the scheme into which the dividend has to be swept, Growth option under the respective Scheme/Plan shall be default option and the application form shall be processed accordingly.

ii) For debt Schemes: Under Dividend Sweep Facility the unitholders can opt for switching the dividend earned under open ended debt schemes into any other equity or balanced scheme of Birla Sun Life Mutual Fund. The dividend (net of applicable TDS, if any) shall be switched subject to minimum investment/sweep amount of ₹ 1000 or the minimum investment eligibility criteria of the scheme into which the dividend is swept in; whichever is higher, at applicable NAV based prices plus applicable load, (ex-dividend NAV, if the opted Scheme has a record date on the date of exercise of sweep option).

5. **KNOW YOUR CLIENT (KYC)**: According to guidelines issued by SEBI under 'The Prevention of Money Laundering Act, 2002', Mutual Funds are required to follow enhanced know your customer (KYC) norms. Birla Sun Life Asset Management Company Limited (BSLAMC) has made arrangements with CDSL Ventures Limited ("CVL"), to process KYC compliance. Investors can visit branches of BSLAMC or may visit www.birlasunlife.com, www.amfiindia.com and www.cdslindia.com to know detailed procedure for KYC compliance. On submission of KYC application alongwith the prescribed documents "KYC Acknowledgement letter" will be issued by CVL to the applicant.

Effective January 01, 2011 it is mandatory for all category of investors to provide a copy of KYC Acknowledgement letter issued by CVL for all investment transactions made on or after January 01, 2011, irrespective of amount of investment.

To further clarify, the above category of investors shall include:

- i. their constituted Power of Attorney (PoA) holder, in case of investments through a PoA
- ii. each of the applicants, in case of investments in joint names; and
- iii. Guardian in case of investments on behalf of minor.

Applications without KYC Acknowledgement letter for the specified category of investors are liable to be rejected. Provided further, where it is not possible to verify the KYC compliance status of the investor at the time of allotment of units, the BSLAMC shall verify the KYC compliance status of the investor within a reasonable time after the allotment of units. In the event of non compliance of KYC requirements, the BSLAMC reserves the right to freeze the folio of the investor(s) for any kind of transactions or affect mandatory redemption of unit holdings of the investors at the applicable NAV, subject to payment of exit load, if any and recovery of unamortized NFO expenses.

Investors who have obtained MIN allotment letter by submitting the PAN copy are deemed to be KYC compliant. Investors should note that on completion of KYC Compliance all details of the investor in the Mutual Fund records will be replaced by the details as given in KYC Application Form by the investor to the CVL. Any change in this details like change of Name / Address / Status /Signature, etc. should be given by Investor directly to CVL in the prescribed manner.

6. **LIST OF MANDATORY FIELDS** :- NECS Debit Bank Account Details / Authorization bank details should be same, MICR CODE other than core banking and auto debit banks, Each SIP amount, Scheme name with option, Start date, Signature on NECS Mandate/PDC and Bank Authorisation. **If any of these fields is left blank, the Application form is liable to be rejected.**

7. RESTRICTION ON ACCEPTANCE OF THIRD PARTY PAYMENT:

- (i) Pursuant to the AMFI Best Practice Guidelines circular on 'Risk mitigation process against Third-Party Cheques in mutual fund subscriptions' read with compliance with 'Know your Customer (KYC)' norms under Prevention of Money Laundering Act, 2002 (PMLA), **Birla Sun Life Asset Management Company Limited (BSLAMC)/ Birla Sun Life Mutual Fund (BSLMF) shall not accept applications for subscriptions of units accompanied with Third Party Payments**, except in the cases as enumerated below in para (iii).

(ii) **"Third Party Payment"** means payment through an instrument issued from a bank account other than that of the beneficiary investor. In case of payments from a joint bank account, the first named investor/holder of the mutual fund folio has to be one of the joint holders of the bank account from which payment is made.

(iii) BSLAMC shall not accept subscriptions accompanied with Third Party Payments except in the following exceptional situations subject to submission of requisite documentation/declarations enumerated in para (iv) below:

- a. Payment by Parents/Grand-Parents/Related persons on behalf of a minor in consideration of natural love and affection or as gift for a value not exceeding ₹ 50,000/- (each regular purchase or per SIP installment) However, this restriction will not be applicable for payment made by a guardian whose name is registered in the records of Mutual Fund in that folio as a guardian.
- b. Payment by Employer on behalf of employee under Systematic Investment Plans (SIP) through Payroll deductions.
- c. Custodian on behalf of an FII or a client.

(iv) In case of 'exceptional situations' mentioned above, investors are required to submit following documents/declarations alongwith the application form without which such applications will be rejected/not processed/refunded:

- a. Mandatory KYC for all Investors (guardian in case of minor) and the person making the payment i.e. third party. In order for an application to be considered as valid, investors and the person making the payment should attach their valid KYC Acknowledgement Letter to the application form.
- b. A separate, complete and valid 'Third Party Payment Declaration Form', inter alia, containing the details of the bank account from which the payment is made and the relationship with the investor(s). The declaration has to be given by the person making the payment i.e. Third Party. Please contact the nearest Investor Service Centre (ISC) of BSLAMC or visit our website www.birlasunlife.com for the said Declaration Form. BSLAMC/BSLMF shall verify the source of funds to ensure that funds have come from the drawer's account only

(v) Investors are requested to note that, in case of:

a. **Payment by Cheque**: An investor at the time of his/her purchase must provide the details of his pay-in bank account (i.e. account from which a subscription payment is made) and his pay-out bank account (i.e. account into which redemption/dividend proceeds are to be paid). If the name/bank account number is not pre-printed on the cheque and signature on the cheque does not match with signature on the application, then the first named applicant/investor should submit any one of the following documents:

- (i) a copy# of the bank passbook or a statement of bank account having the name and address of the account holder and account number;
- (ii) a letter* (in original) from the bank on its letterhead certifying that the investor maintains an account with the bank, along with information like bank account number, bank branch, account type, the MICR code of the branch & IFSC Code (where available).

Investors should also bring the original documents along with the documents mentioned in (i) above to the ISCs/Official Points of Acceptance of BSLMF. The copy of such documents will be verified with the original documents to the satisfaction of the BSLAMC/BSLMF. The original documents will be returned across the counter to the investor after due verification.

**In respect of (ii) above, it should be certified by the bank manager with his/her full signature, name, employee code, bank seal and contact number.*

Investors should note that where the bank account numbers have changed on account of the implementation of core banking system at their banks, any related communication from the bank towards a change in bank account number should accompany the application form for subscription of units.

b. **Payment by Prefunded Instrument**: (1) If the subscription is settled with pre-funded instruments such as Pay Order, Demand Draft, Banker's cheque, etc., a Certificate (in original) from the Issuing banker must accompany the purchase application, stating the Account holder's name and the Account number which has been debited for issue of the instrument. The account number mentioned in the Certificate should be a registered bank account or the first named unitholder should be one of the account holders to the bank account debited for issue of such instruments. Investors may also submit a copy of the acknowledgement from the bank, wherein the instructions to debit carry the bank account details and name of the investor as an account holder, or a copy of the passbook/bank statement evidencing the debit for issuance of a DD, provided bank account number has to match with the details provided in the application form and name should match with the name of the first named unitholder.

(2) A pre-funded instrument issued by the Bank against Cash shall not be accepted for investments of ₹ 50,000/- or more. This also should be accompanied by a certificate from the banker giving name, address and PAN (if available) of the person who has requested for the payment instrument. The name mentioned on the Certificate should match with the name of the first named unitholder and certificate must state such investor's bank account number and PAN as per bank record, if available.

The Certificate(s) mentioned in (1) and (2) above should be duly certified by the bank manager with his/her full signature, name, employee code, bank seal and contact number.

c. **Payment by RTGS, NEFT, Bank transfer, etc:**

A copy of the instruction to the bank stating the account number debited must accompany the purchase application. The account number mentioned on the transfer instruction copy should be a registered bank account or the first named unitholder should be one of the account holders to the bank account.

In case the application for subscription does not comply with the above provisions, BSLAMC/BSLMF retains the Sole and absolute discretion to reject/not process such application and refund the subscription money and shall not be liable for any such rejection.

8. Email communication

Account Statements, Quarterly Newsletter, Annual Reports and Transaction Confirmation can be sent to Unit holders by post / e-mail. Should the Unit holder experience any difficulty in accessing in the electronically delivered documents, the unit holder shall promptly inform the same to the Mutual Fund. It is deemed that the Unit holder is aware of all security risks including possible third party interception of the documents and contents of the documents becoming known to third parties.

TRIGGER FACILITY ^ (under growth option)

1. Features: Under Trigger facility, the investor can choose a specific % target return, which, if achieved in the scheme, the Gain / Fund value (as opted by the investor) can be switched to the any of the following Debt schemes as may be selected by the investor i.e Birla Sun Life Savings Fund or Birla Sun Life Ultra Short Term Fund or Birla Sun Life Dynamic Bond Fund-Retail Plan or Birla Sun Life Cash Plus This facility is being made available for transactions made through electronic mode only.
 2. Trigger levels: 15%, 30%, 50% & 100% gain from average cost of acquisition of the units in the scheme
 3. Trigger Switch options: Gain amount or entire invested amount with gain in the scheme to Debt scheme selected by investor. The Minimum application amount criteria for debt schemes will not be applicable for switches.
 4. Debt Schemes:
 - Birla Sun Life Savings Fund**
 - Birla Sun Life Ultra Short Term Fund**
 - Birla Sun Life Dynamic Bond Fund - Retail Plan**
 - Birla Sun Life Cash Plus**
 5. Default trigger/Scheme:
 - Default Trigger Level – 15%
 - Default Debt Scheme for switch-in - Birla Sun Life Savings Fund - Retail Plan – Growth Option

In case the investor fails to specify his preference within the Debt scheme, the default plan/options of the respective debt scheme, as mentioned in the Scheme Information Document, would apply.
 6. NAV for Switch: NAV of the trigger day will be considered for the purpose of switch. In case of non business day in debt schemes, switch will be processed on next business day for both the schemes
 7. Other Features:
 - Triggered returns will be calculated on the average cost value of the investment.
 - Average cost price = Total investment amount of outstanding units / Total No. Of outstanding Units
 8. Risk Factors specific to this facility:
 - i. There is no guarantee or indication that the scheme will generate the triggered returns
 - ii. Past performance of the schemes may or may not be sustained in the future
 - iii. Investors are not being offered any assurance or indication of any minimum amount of capital appreciation or minimization of losses. The scheme into which the triggered value is switched into, is subject to the respective scheme specific risk factors, including but not limited to Interest Rate risk, liquidity or marketability risk, credit risk, reinvestment risk, etc.
 - iv. Securities transaction tax as applicable, may be chargeable. Investors are advised to consult their Tax Advisors in regard to legal implications relating to their investments in the Scheme.
 9. For the applicable load structure for the facility please refer Key Information Memorandum attached herewith. Investors should note that the Growth option under the scheme is available without the Trigger facility also.
- ^ Currently Trigger Facility is available under Birla Sun Life Frontline Equity Fund - (Growth option) for electronic mode only.

****Additional portfolio characteristics under Birla Sun Life Cash Plus and Birla Sun Life Floating Rate Fund - Short Term Plan.**

In accordance with SEBI Circular No. SEBI Circular No. 13/150975/09 dated January 19, 2009 Birla Sun life Cash Plus and Birla Sun Life Floating Rate Fund-Short Term Plan shall have the following additional characteristics with regard to its portfolio:

Investments in the schemes are subject to various risk factors including but not limited to risks associated with: investment in Equity and Equity related instruments, investments in Debt Securities such as Price-Risk or Interest-Rate Risk, Credit Risk, Liquidity or Marketability Risk, Reinvestment Risk etc., investments in Foreign Securities including currency risks, investments in Derivatives (The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments), investments in Securitised Debt assets which would be in the nature of Mortgage backed securities (MBS) and Asset backed securities (ABS) with underlying pool of assets and receivables like Housing Loans, Auto loans and corporate loans. The various risks associated with these assets include Prepayment Risk, Credit Risk, Liquidity Risk, Conversion risk, Price risks etc. The schemes shall also be subject to risks associated with stock lending, short selling etc.

Different types of securities in which the scheme would invest as given in the Scheme Information Document/Key Information Memorandum carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than Government securities. The above are some of the common risks associated with investments in various securities. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis. For the Scheme Birla Sun Life Monthly Income Birla Sun Life MIP, Birla Sun Life MIP II, monthly income is not assured and is subject to availability of distributable surplus. Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem Units. For detailed Risk Factors please refer to Scheme Information Document

Risk Factors Specific to Birla Sun Life Dividend Yield Plus

- Risks associated with High Dividend Yield stocks: Though the investments would be made in companies having a track record of dividend payments, the performance of the scheme would inter-alia depend on the ability of these companies to sustain dividends in future.
- These stocks, at times, may be relatively less liquid as compared to growth stocks.

Risk Factors Specific to Birla Sun Life Index Fund

Tracking errors are inherent in any index fund and such errors may cause the schemes to generate returns which are not in line with the performance of the S&P CNX Nifty or one or more securities covered by / included in the S&P CNX Nifty and may arise from a variety of factors including but not limited to:

1. Any delay in the purchase or sale of shares due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of dividends, etc.
2. The index reflects the prices of securities at a point in time, which is the price at close of business day on National Stock Exchange of India Limited (NSE). The scheme, however, may trade these securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of each scrip on that day on the NSE. In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from NSE closing prices.
3. India Index Services & Products Limited (IISL) undertakes periodic reviews of the fifty securities that are represented in the Nifty and from time to time may exclude existing securities or include new ones. In such an event, the scheme will endeavor to reallocate its portfolio to mirror the changes. However, the reallocation process may not occur instantaneously and may not permit precise mirroring of the Nifty during this period.
4. The potential of trades to fail may result in the scheme not having acquired the security at the price necessary to mirror the index.
5. Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees.
6. Being an open-ended scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet ongoing redemptions.
7. The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to circuit filters in the securities, liquidity and volatility in security prices.
 - Due to the reasons mentioned above and other reasons that may arise, it is expected that the scheme may have a tracking error in the range of 2 to 3% per annum from its Benchmarks.
 - However, it needs to be clearly understood that this is just an indicative range and that the actual tracking error can be higher or lower than the range given.
 - In the event the S&P CNX Nifty is dissolved or is withdrawn by IISL or is not published due to any reason whatsoever, the Trustee reserves the right to modify the scheme so as to track a different and suitable index or to suspend tracking the Nifty till such time it is dissolved / withdrawn or not published and appropriate intimation will be sent to the Unit holders of the scheme. In such a case, the investment pattern will be modified suitably to match the composition of the securities that are included in the new index to be tracked and the scheme will be subject to tracking errors during the intervening period.

Risk Factors Specific to Birla Sun Life Midcap Fund

- The ability to absorb business changes is lesser in mid-cap companies as compared to some of their larger compatriots
- These stocks may, at particular given time, have poor liquidity on the bourses and volatility levels could be higher.

Risk Factors Specific to Birla Sun Life India Opportunities Fund

- Exchange rate fluctuations could adversely impact corporate earnings.
- Government policy regarding implementation of international treaties like WTO etc. could affect the fortunes of many of the companies where the scheme proposes to invest.
- Imposition of tariff / non - tariff barriers and restrictions on labour by countries in the target markets would impact corporate earnings.
- A number of companies in the technology sector generate revenues in foreign currencies and may have investments or expenses also denominated in foreign currencies. Changes in exchange rates may, therefore, have a positive or negative impact on companies in the said sector.
- The Scheme's investments will be predominantly in equities of select companies in technology intensive sectors. Accordingly, the NAV of the Scheme is linked to the equity performance of such companies and may be more volatile than a more diversified portfolio of equities.

Risk Factors Specific to Birla Sun Life MNC Fund

- The scheme's investments will be in a select group of companies and therefore, the performance of this fund would be directly linked to performance of these select companies.
- Many of the profitable companies operating in the MNC sector are opting for share buybacks and de-listing. This may create a shrinking universe of investment opportunities in this sector.

Risks Factors Specific to Birla Sun Life Commodity Equities Fund

- Scheme will invest in the specified commodity companies or units of mutual funds that invest in commodity companies and thus the risk pertaining to each of the commodities will be applicable to the Scheme also
- Scheme intends to invest in stocks or funds. Pricing of the underlying stocks or mutual fund Schemes would be affected by the movement in the price of the respective commodities.
- Investment in overseas securities: Scheme seeks to invest in international securities or funds. These securities involve an increase in risk and volatility, not typically associated with domestic investing, due to changes in currency exchange rates, foreign government regulations, difference in auditing and accounting standards potential political and economic instability, limited liability and volatile prices. Further, risks associated with extraordinary exchange control, economic deterioration and changes in bi-lateral relations.
- Execution of investment strategies depends upon the ability of the fund manager to identify such opportunities which may not be available at all times and that the decisions made by the fund manager may not always be profitable.
- There is a difference in the trading timings in various countries. Thus a real-time price of the overseas securities may not be available for the purpose of calculating the NAV.
- The Scheme is also vulnerable to movements in the prices of securities invested by the Scheme, which again could have a material bearing on the overall returns from the Scheme.
- The returns from the type of securities in which the Scheme invests may under perform returns from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under-performance in comparison of the general securities market.
- In both Domestic and International markets, there may be risks associated with trading volumes, settlement periods and transfer procedures that may restrict liquidity of investments in equity and equity-related securities.
- Scheme will be exposed to settlement risk, as different countries will have a different settlement period.

Investments in foreign securities under each Plan of the Scheme on an ongoing basis shall be governed by the limits specified by SEBI/RBI from time to time. AMC reserves the right to refund/reject any application under the Scheme in case the investment in foreign securities exceeds the limits specified by SEBI/RBI from time to time.

Risk Factors Specific to Birla Sun Life Buy India Fund

1. Change in Tax rates/structure: Most companies in this universe are in high/highest corporate tax brackets. Moreover, India being a price sensitive market, any change in excise structure would impact selling price, demand and/or company margins. Also, increases in personal taxes correspondingly reduce disposable income, thereby reducing consumption. Hence any modification to existing tax rate or structure would impact business performance.
2. Government Regulation: The universe is exposed to various regulatory issues such as DPCO, IPR, 100% subsidiary allowance (in case of MNCs), Royalty payments, Indian sourcing and relevant tariffs. The manner and extent of allowance/disallowance of all the above would have a bearing on company strategy and business focus.
3. Political Uncertainty: The universe is to a great extent dependent on strong consumer spending, to be able to deliver strong performance. Political uncertainty creates a weaker consumer environment, as individuals defer purchases until discerning more secure, stable environment (often referred to as the "feel good factor").
4. Competition from spurious/smuggled goods: This has become a problem of increasing magnitude in recent times. However, individual companies are well aware of such practices, and have sensitized regulatory authorities to the same.

Risk Factors Specific to Birla Sun Life New Millennium Fund

1. Loss of Key Professionals: In technology industries the ability to recruit and retain professionals with the necessary technical skills can be crucial to the ongoing success of the organisation. Qualified IT professionals are a limited resource and there is a worldwide demand for professionals from the Indian sub-continent. Failure to be able to retain key professionals can negatively impact the prospects of a company.

2. Failure to adapt business to the rapid technological change: Companies in the IT industry may be adversely affected by rapid technological changes, product innovations and obsolescence, changing standards and client preferences. All or one of these issues may impact the business prospects of a company.
3. Changes to Tax Benefits in India: The Government of India has given the information technology sector favorable tax benefits. If these tax benefits are removed or amended then it is possible that the changes may have a material adverse impact on a company's revenue and earnings.
4. Exchange Rates: A number of companies in the technology sector generate revenue in foreign currencies and may even have investments or expenses denominated in foreign currencies. Changes in exchange rates may therefore have a positive or negative impact on a company's bottom line.

Risk Factors Specific to Birla Sun Life Basic Industries Fund:

1. Political Uncertainty: Political uncertainty impacts infrastructure spending of both the government and the private sector thereby impacting the demand for commodities. Besides, consumers tend to defer purchases and investment decisions in times of political uncertainty further impacting demand.
2. Downtrend in International Commodity Prices: With the continuous lowering of custom tariffs (as per the requirement of the WTO), the Indian industry is now getting increasingly integrated with global markets. Any downturn in international prices of commodities will impact the domestic pricing environment and therefore the profitability of companies in these sectors.
3. Poor monsoon: The performance of the Indian economy is closely related to the performance of the monsoon. It directly impacts agricultural production and therefore rural incomes, which is an important determinant of consumer demand. Industrial growth is also therefore indirectly dependent on the monsoon.

Risk Factors Specific to Birla Sun Life Infrastructure Fund:

- The investments under the scheme are oriented towards equity/equity related securities of companies belonging to the infrastructure industries and hence will be affected by risks associated with the infrastructure industries. The performance of the companies, which form the investment universe of this scheme, would be affected by the growth and performance of the infrastructure sector in the country.
- As the scheme may hold securities that are not in the S&P CNX Nifty Index and may invest in limited number of sectors with higher concentration in certain sectors and industries, it may perform differently from the general stock markets.

Risk Factors Specific to Birla Sun Life International Equity Fund:

- Investments in International (overseas) equity and equity related instruments Securities involves increased risk and volatility, not typically associated with domestic investing, due to changes in currency exchange rates, foreign government regulations, differences in auditing and accounting standards, potential political and economic instability, limited liquidity, and volatile prices. Further, risks associated with introduction of extraordinary exchange control, economic deterioration, and changes in bi-lateral relationships.
- Investments in foreign securities under Plan A and Plan B of the Scheme on an ongoing basis shall be governed by the limits specified by SEBI/RBI from time to time. BSLAMC reserves the right to refund/reject any application under the Scheme in case the investment in foreign securities exceeds the limits specified by SEBI/RBI from time to time.
- "Standard & Poor's", "S&P" and "STARS" are trademarks of The McGraw - Hill Companies, Inc. and have been licensed for use by Birla Sun Life Asset Management Company Limited, as manager of the Birla Sun Life International Equity Fund ("the Fund"). The Fund is not sponsored; managed; sold or promoted by Standard & Poor's and its affiliates and Standard & Poor's makes no recommendation as to the advisability of investing in the Fund.

Risk Factors Specific to Birla Sun Life Special Situations Fund:

The Scheme may invest in stocks, which are undervalued with the anticipation of increase in price. However, the stocks may continue to languish and may not attain the anticipated price. The Fund is subject to investment style risk; the Scheme has a contrarian style of investment, the funds performance may not be in line with the general market in scenarios of strong upward or downward cycles. Further, the prices of securities invested by the scheme may not behave as expected by Fund Manager; this may affect the returns of the Scheme adversely.

Risk Factors Specific to Birla Sun Life Floating Rate Fund

- Basis Risk (Interest rate movement): During the life of floating rate security or a swap the underlying benchmark may become less active and may not capture the actual movement in interest rates or at times the benchmark may cease to exist. These type of events may result in loss of value in the portfolio.
- Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up/ mark down over the benchmark rate. However depending upon the market conditions the spreads may move adversely or favorably leading to fluctuation in NAV.
- Counterparty Risk: As the scheme will be investing substantially in floating rate instruments, it may be entering into swaps of fixed rate obligations for floating rate returns. There is a possibility that loss may be sustained by the portfolio as a result of the failure of another party (usually referred as the "counter party") to comply with the terms of the derivatives contract.

Risk Factors Specific to Birla Sun Life Enhanced Arbitrage Fund

- The scheme will aim to generate absolute returns over and above money market returns/liquid funds. The performance of the scheme will depend on the ability of the fund manager to identify opportunities prevailing in terms of price spread (difference) in the cash and derivative market. No assurance can be given that Fund Manager will be able to locate investment opportunities or to correctly exploit price spread in the equity markets. There may be instances where the price spread between cash and derivative market is insufficient to meet the cost of carry. In such situations, the Fund Manager due to lack of opportunities in the derivative market may not be able to outperform liquid/money market funds. In addition to this, there can be increase in number of transactions as the fund manager has to take simultaneous calls in cash and derivative market, which may lead to high portfolio turnover and consequently will lead to high transaction costs.
- There can be no assurance or guarantee that the arbitrage opportunities may exist at all times in the capital market. The lack of arbitrage opportunities shall not provide an opportunity to the Fund Manager to exploit price discrepancies in the capital markets.
- Though the constituent stocks of most indexes are typically liquid, liquidity differs across stocks. Due to the heterogeneity in liquidity in the capital market segment, trades on this segment do not get implemented instantly. This often makes arbitrage expensive, risky and difficult to implement.
- The Fund intends to take advantage of opportunities arising out of corporate events like open offers, buy-back, merger, initial public offers, etc. The lack of such corporate events may lead to lack of opportunities to the Fund Manager.

Risk Factors Specific to Birla Sun Life Small & Midcap Fund

- The investments under the Scheme will be concentrated in the Small and Mid Cap segment and hence may perform differently than a broad market portfolio. Small and Mid Cap stocks are generally more volatile and less liquid as compared to Large Cap stocks. Further Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.
- Investing in companies which are part of the CNX Midcap Index stocks is based on the premise that relatively small and midcap companies will increase their earnings and grow into larger, more valuable companies. However, as with all equity investing, there is the risk that a company will not achieve its expected earnings results, or that an unexpected change in the market or within the company will occur, both of which may adversely affect investment results. Historically, stocks which are part of the CNX Midcap Index stocks have experienced greater volatility and they may be less liquid than larger cap stocks. Thus, relative to larger, more liquid stocks, investing in small and midcap stocks, involves potentially greater volatility and risk. The biggest risk of equity investing is that returns can fluctuate and investors can lose money.

Investors in the Schemes are not being offered any guaranteed returns. Further, the Fund/AMC is not guaranteeing or assuring any returns. The fund is also not assuring or guaranteeing that it will be able to make regular dividend distributions to its Unit holders (wherever applicable), though it has every intention to manage the portfolio so as to make such payments to the Unit holders. Dividend payments will be dependent on the returns achieved by the AMC through active management of the portfolio. The dividend distributions may, therefore, vary from time to time based on investment results of the portfolio. Further, it should be noted that the actual distribution of dividends and the frequency thereof are indicative and will depend, inter-alia, on availability of distributable surplus. Dividend payouts will be entirely at the discretion of the Trustee.

INVESTMENT STRATEGY

Birla Sun Life Advantage Fund

The investment emphasis of the Fund would be on identifying companies with sound corporate managements and prospects of good future growth. Past performance will also be a major consideration. Essentially, the focus would be on long-term fundamentally driven values. However, short-term opportunities would also be seized, provided they are supported by underlying values.

Birla Sun Life Dividend Yield Plus

The scheme aims to generate returns by investing in high dividend-paying companies. Historically, stocks of high dividend yielding companies provide a high degree of protection during falling equity markets. Along with this protection, there is a good possibility of stock prices appreciating, should the equity markets revive. When a high dividend yield investment is made in conjunction with other parameters like low price to book value ratio (price-to-book) and low market capitalization to sales ratio (market cap-to-sales), the possibility of upward re-rating of the stock increases. The scheme would therefore aim to build a portfolio that provides a combination of high dividend yield, substantial capital protection and a strong possibility of capital gains.

Investing in stocks with high dividend yields is traditionally a 'Defensive Investment Strategy'. Using this approach, the scheme targets to achieve returns higher than what would otherwise be available in interest bearing securities (Bonds, FDs, CDs, Debentures etc.), but without taking undue exposure to the vagaries of stock markets. Historically, the share prices of companies having high dividend yield are less volatile than growth stocks. It is the belief of the Fund Manager that the companies, which have a track record of dividend payment, are perceived as 'Shareholder Friendly'. High Dividend payouts often signal that there is enough cash generation in the business. Quite often, a high dividend yield in these companies indicates that the stock is currently under priced in spite of higher cash generating ability of the issuer. A careful selection of these stocks could therefore unlock the potential growth, which should eventually reflect in the share prices.

Though high dividend yield would be one of the prime criteria for selection of stocks, every investment would be done taking into account the following factors besides others: 1. Business Fundamentals 2. Quality of Management 3. Industry Trends 4. Growth Prospects 5. Track Record and Consistency of Dividend Payments 6. Volatility of the stock Since the fund intends to follow a defensive strategy, it would invest primarily in stocks that have a low volatility or beta. Beta is a measure of volatility of a stock or a portfolio relative to an index. As mentioned in the section on "Asset Allocation and Investment Policies" above, the scheme may, from time to time invest in 'special situations' like share buy-backs, de-listing opportunities or during mergers and acquisitions. The Investment Process for such investments will be different from normal investments in the scheme. Opportunities will be seized based on consideration of short term benefits. Such situations will be identified and discussed in the investment group. Thereafter, a risk evaluation would be carried out to arrive at a decision. These decisions would be properly recorded along with justifications for such decisions. As a part of the investment strategy, the fund would book profits regularly to take advantage of any favourable market trend. BSLAMC may, from time to time, review and modify the Scheme's investment strategy if such changes are considered to be in the best interests of unit holders and if market conditions so warrant.

Birla Sun Life Midcap Fund

The scheme would invest a substantial portion of its investible assets (over 65%) in Mid Cap companies. The stocks of these companies are generally more volatile and less liquid than the large cap stocks. In order to diversify the portfolio, the fund manager may invest upto 35% in stocks which have a higher or lower market capitalisation. A small portion of the portfolio may be kept in call and money market instruments in order to meet the liquidity needs.

The investment emphasis of the Fund would be on identifying companies with sound corporate managements and prospects of good future growth. Past performance will also be a major consideration. Essentially, the focus would be on long-term fundamentally driven values. However, short-term opportunities would also be seized, provided they are supported by underlying values. As part of the investment strategy, fund will book profits regularly to take advantage of the volatility in the market.

Birla Sun Life MNC Fund

The investment emphasis of the Scheme would be on identifying companies with sound corporate managements and prospects of good future growth. A track record of superior performance and corporate governance will be added considerations. Essentially, the focus would be on stocks driven by long term fundamentals. However, short-term opportunities would also be seized, provided underlying values supports these opportunities.

Liquidity will be very important consideration for investment decisions, due to the potential of large redemptions inherent in open-end schemes. As a result, a significant proportion of the Scheme's equity investments will be made in relatively liquid large capitalization stocks, including established blue-chips and emerging blue-chip stocks. In addition, as far as supported by liquidity considerations, investments in small and medium capitalization growth stocks will also be emphasized in expectation of higher returns. A portion of the funds will also be invested in IPOs and other primary market offerings that meet our investment criteria.

Birla Sun Life India Opportunities Fund

Investment Strategy would focus on achieving superior risk adjusted returns by investing in attractively priced shares of companies that are poised for rapid growth in Revenues and Profits. These companies would fall into two broad categories. One set of investment opportunities includes information technology (IT) and IT-related companies, media, telecom, pharmaceutical and bio-technology companies. These companies use a combination of intellectual capital and lower labour costs to deliver high quality and low cost solutions.

The second set of companies where the scheme would invest will come from sectors that are not directly related to IT and related companies. So far, we have seen India's low cost and intellectual capital being exploited in the field of services and pharmaceutical research. We believe India is now ready to play an increasingly important role in exports of manufactured goods like auto ancillaries, generic & bulk pharmaceuticals and textiles. These represent large business opportunities where India has medium-to-long term competitive advantage. The key criteria for evaluation would be whether foreign exchange earnings form a material portion of revenue and exports and is the key thrust area for future growth. Thus, the fund aims to be a vehicle for investing in India's role in the Global Outsourcing Theme.

Stock Selection strategy

The scheme would invest a substantial portion of its investible assets (over 65%) in the investment universe as defined above. In order to diversify the portfolio, the fund manager may invest upto 35% in stocks which other than as defined in the investment universe above. A small portion of the portfolio may be kept in call and money market instruments in order to meet the liquidity needs.

The investment emphasis of the Fund would be on identifying companies with sound corporate managements and prospects of good future growth. Past performance will also be a major consideration. Essentially, the focus would be on long-term fundamentally driven values. However, short-term opportunities would also be seized, provided they are supported by underlying values. As part of the investment strategy, fund will book profits regularly to take advantage of the volatility in the market.

Birla Sun Life Infrastructure Fund

The corpus of the Scheme will be primarily invested in equity and equity related securities of the companies in the Infrastructure Sector. The Scheme may also invest a small portion of its corpus in money market instruments to manage its liquidity requirements. All companies selected will be analysed taking into account the business fundamentals like nature and stability of business, prospects of future growth and scalability, financial discipline and returns, valuations in relation to broad market and expected growth in earnings, the company's financial strength and track record. The fund may also invest in ADR/GDR and equities of listed overseas companies. These investments will be made in line with the RBI and SEBI guidelines and will be within the limits prescribed by SEBI/RBI from time to time.

Stock Selection Strategy

The Fund will select stocks of companies engaged in the area of infrastructure across the following industries. Please note that the list is indicative and the Investment Manager may add such other sector/group industries, which broadly satisfy the category of infrastructure industries:

- Ø Banking and Financial Services
- Ø Capital Goods
- Ø Cement
- Ø Coal
- Ø Construction
- Ø Earth Moving Equipments
- Ø Energy
- Ø Engineering
- Ø Housing
- Ø Metals
- Ø Oil and Oil Related Sectors
- Ø Petroleum
- Ø Ports
- Ø Power and Power Equipments
- Ø Telecommunications
- Ø Transportation

These sectors are only indicative and this could undergo change based on future reforms and developments. The Fund will select stocks from the investment universe, which, in the opinion of the Fund Manager, offer an attractive investment opportunity to participate in the growth of the infrastructure sector. These may be across the above-mentioned sectors or other areas of Infrastructure as may be identified by the Fund. A combination of the top down approach and bottom up approach will be followed in the stock selection process. The top down approach will focus on an analysis of macro economic factors, economic changes & trends, key policy changes, infrastructure spending, etc. The bottom-up approach would seek to identify companies with high profitability and scalability supported by sustainable competitive advantages.

Subject to the provisions of Schedule Seven of the SEBI (Mutual Funds) Regulations, 1996, there will not be any restrictions on the level of participation in any of the abovementioned industries.

Birla Sun Life India GenNext Fund

Indian economy has seen a paradigm change in the consumption habits in the last decade.

This pattern is fuelled not only by the opening up of the Indian economy but also due to integration with the global markets. The rising income levels in India are primarily guiding the high value consumption patterns. The rising levels of consumption are also being led by a growing breed of young educated mass of people working in areas like call centers, service desks, IT companies, Financial Services etc. This young educated mass is earning well and spending well. The young generation has consumption habits that are markedly different from the existing middle class population. It is a well-accepted fact that service industry is a major employment generator, as the primary reliance in service sector is on human capital.

Birla Sun Life India GenNext Fund seeks to invest in such companies that are in products or services, which cater to the young consumers, or companies that have distinct brand identities and therefore enable choice. Some of the sectors that are expected to benefit from this rising propensity to spend are:

- Automobiles
- Hospitality
- Travel and tourism
- Pharmaceutical and Health Care
- Utilities companies like telecom, power distribution etc.
- Retail chains
- Consumer Goods
- Consumer Durables
- Financial services and banks
- Housing finance companies

The fund would seek to invest in these sectors as well as others that cater directly to the consumers. For further details on Investment Strategy for the scheme, please refer to Scheme Information Document.

Birla Sun Life Index Fund

The scheme will be managed passively with investments in stocks in a proportion that is as close as possible to the weightages of these stocks in the NIFTY. The investment strategy would revolve around reducing the tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the index as well as the incremental collections / redemptions in the scheme.

Birla Sun Life Top 100 Fund

Birla Sun Life Top 100 Fund is designed for those investors who seek exposure to a broader large market capitalization stocks and Growth cum value style of investing. The fund shall invest at least 65% of its corpus in equity and equity related securities of top 100 Indian companies as measured by market capitalisation (stock market worth) and listed on stock exchanges. Securities listed on the National Stock Exchange of India shall be considered to determine the top 100 market capitalization companies. The universe would also include those companies coming out with New Fund Offerings and whose post issue market cap (based on issue price) would be amongst the largest 100 Indian companies. The remaining portion of the portfolio will be invested in equity and equity related securities of companies other than the Top 100 companies which in the opinion of the fund manager have attractive growth prospects and potential to outperform the broad market indices. The fund may also invest in ADR/GDR and equities of listed overseas companies. These investments will be made in line with the RBI and SEBI guidelines and will be within the limits prescribed by SEBI/RBI from time to time. For further details on Investment Strategy for the scheme, please refer to Scheme Information Document.

Birla Sun Life Equity Fund

The Scheme would adopt top-down and bottom-up approach of investing and will aim at being diversified across various industries and / or sectors and/ or market capitalization. The investment emphasis of the scheme would be on identifying companies with sound corporate managements and prospects of good future growth. Essentially, the focus would be on stocks driven by long-term fundamentals. However, short-term opportunities would also be seized, provided underlying values supports these opportunities. A portion of the scheme will also be invested in IPOs, emerging sectors, concept stocks and other primary market offerings that meet our investment criteria.

The scheme would invest a substantial portion of its investible assets (80% - 100%) in equity and equity related instruments. Pending investment of the scheme may be invested in debt & money market instruments and other liquid instruments or both. The scheme may have prudent exposure to Futures & Options (F&O) to capture opportunities arising out of market imperfection and to hedge the portfolio, whenever necessary.

Birla Sun Life Frontline Equity Fund

The Scheme will aim at being diversified across various industries and / or sectors as its chosen benchmark index. It will target the same sectoral weights within its equity portfolio as the benchmark index on a designated day subject to some predetermined flexibility. However, the Scheme shall have the flexibility of selecting stocks within a particular sector from a wider investment universe. So while the equity component of the Scheme's portfolio will track sectoral weights of the chosen benchmark index, the stocks making up those sectoral weights in the Scheme's portfolio could be different from those comprising the relevant sectoral weights in the index. However, such stocks will be from the same sectors although they may differ from the index constituents on account of the Scheme's investment universe being wider than index stocks.

The sectoral weights will be computed by aggregating market values of individual stocks sector wise, as a percentage of the total market value of the equity component in the Scheme's portfolio. The Scheme will have the flexibility of varying the sectoral weights by $\pm 25\%$ of the sectoral weights in the index on the designated day, or by an absolute figure of $\pm 3\%$, whichever is higher. For example, if the sector weight in the index on the designated day is 15%, the $\pm 25\%$ rule will apply and the Scheme will maintain a weight between 11.25% and 18.75%. For a sector comprising 10% of the index, the Scheme could have an exposure of between 7% - 13% to that sector in the equity component in its portfolio since in this situation, the $\pm 3\%$ rule will become applicable. This implies that sectors with less than 3% weights in the index on the designated day may be ignored. The Scheme's equity portfolio will attain the sectoral diversification of the index on the designated day computed in the above manner, by the month-end after the designated day. The Scheme may invest up to 25% of its net assets in cash, government securities, debt and money market instruments. This limit may not be exceeded for a continuous period of 30 days without the approval of / ratification by the Trustee.

The Scheme has currently chosen BSE 200 as its benchmark index. The designated day shall be the 23rd of every month. If 23rd is a non-Business Day, the immediately preceding Business Day shall be the designated day for that month. The equity portfolio of the Scheme will match the sectoral diversification of the benchmark index on the designated day, by the last calendar day of each month or if it is a non-Business Day, by the first Business Day of the next month. The Scheme will typically attain the sectoral weights of the benchmark index by the last Business Day of each month.

The Scheme's investment universe shall comprise all listed and / or unlisted stocks. The Scheme will endeavour to invest in 'frontline' stocks i.e. stocks which in the opinion of its Fund Manager, provide superior growth opportunities. The stocks will be categorised into the sectors making up the benchmark index by the Trustee.

Birla Sun Life Buy India Fund

The primary investment objective of the scheme is to generate long term growth of capital, through a portfolio with a target allocation of 100% equity, focusing on investing in businesses that are driven by India's large population and inherent consumption patterns. The focus of the scheme will be in the sectors that cater directly to the consumers, such as Banks & Financial Services, Housing Finance Companies, Automobiles, Hospitality, Travel and Tourism, Pharmaceutical and Health Care, Telecom, Power Distribution, Retail chains, Consumer Goods, Consumer Durables, etc.

The Fund will select stocks from the investment universe, which, in the opinion of the Fund Manager, offers an attractive investment opportunity. These may be across the above-mentioned sectors or other areas as may be identified by the Fund Manager. The fund would have the flexibility to invest in stocks across different market capitalization. The fund would therefore contain a blend of large, mid and small cap stocks. The allocation to the different market caps would vary from time to time depending on the overall market conditions, market opportunities and the fund manager's view. The percentage exposure to any sector or stock would be determined by the fund manager, based on macro-economic, sector as well as company specific factors. At all times, the intention would be to achieve higher risk control and maximize returns. Essentially, the focus would be on long-term fundamentally driven values.

A combination of the top down approach and bottom up approach will be followed in the stock selection process. The top down approach will focus on an analysis of macroeconomic factors, economic changes & trends, key policy changes, infrastructure spending, etc. The bottom-up approach would seek to identify companies with high profitability and scalability supported by sustainable competitive advantage.

Birla Sun Life New Millennium fund

The scheme aims to generate returns by investing in technology and technology dependent companies which includes: software services, products, BPO, hardware, internet and e-commerce, media and entertainment, telecommunication services and equipments and technology enabled companies. The scheme will follow a bottom-up approach to stock picking, adopting a blend of value and growth style of investing. The investment emphasis of the scheme will be to identify and invest in companies with robust business model, strong competitive position and managed by quality management.

Birla Sun Life Basic Industries Fund

The corpus of the Scheme will be primarily invested in diversified equity and equity related securities of the companies that are sensitive to economic cycles and commodity pricing cycles and are often referred to as cyclical companies. Cyclical companies are those which belong to sectors like Banking, Cement, Paper, Sugar, Tea, Construction, Metals, Capital Goods, Petrochemicals, Oil & Gas, Steel, etc. However it would not include sectors like Pharma & FMCG which are non cyclical.

INVESTMENT STRATEGY

The Fund will select stocks from the investment universe, which, in the opinion of the Fund Manager, offers an attractive investment opportunity. These may be across the above-mentioned sectors or other areas as may be identified by the Fund Manager. The fund would have the flexibility to invest in stocks across different market capitalization. The fund would therefore contain a blend of large, mid and small cap stocks. The allocation to the different market caps would vary from time to time depending on the overall market conditions, market opportunities and the fund manager's view. The percentage exposure to any sector or stock would be determined by the fund manager, based on macro-economic, sector as well as company specific factors. At all times, the intention would be to achieve higher risk control and maximize returns. Essentially, the focus would be on long-term fundamentally driven values. A combination of the top down approach and bottom up approach will be followed in the stock selection process. The top down approach will focus on an analysis of macroeconomic factors, economic changes & trends, key policy changes, infrastructure spending, etc. The bottom-up approach would seek to identify companies with high profitability and scalability supported by sustainable competitive advantage.

Birla Sun Life Tax Plan

Stock Selection Strategy: The Scheme would adopt a bottom-up approach to investing. The investment emphasis of the Scheme will be in identifying companies with strong competitive position in good businesses, and having quality managements. Essentially, the focus would be on long-term fundamentally driven values.

Birla Sun Life Tax Relief 96

A combination of the top down approach and bottom up approach will be followed in the stock selection process. The top down approach will focus on an analysis of macroeconomic factors, economic changes & trends, key policy changes, infrastructure spending, etc. The bottom-up approach would seek to identify companies with high profitability and scalability supported by sustainable competitive advantage.

Birla Sun Life International Equity Fund (Plan A and Plan B)

Plan A

The Plan would be investing exclusively in international stocks. The investment strategy of the Plan would be to create a portfolio that is diversified geographically, to take benefit of low correlation between various countries, and to create a portfolio of high quality - high growth stocks. The international portion would aim towards reducing the risk through diversification and contribute to returns.

Plan B

The Plan would be investing in a blend of domestic and international stocks. The broad investment strategy of the Plan would be to create a portfolio that is diversified geographically, to take benefit of low correlation between various countries, and to create a portfolio of high quality - high growth stocks. The domestic portion of the portfolio would provide a strong base to the scheme and the international portion would aim towards reducing the risk through diversification and contribute to returns.

Domestic Investment Strategy:

The corpus of the scheme will be primarily invested in diversified equity and equity related securities of the companies that have a potential to appreciate in the long run. The scheme would have the flexibility to invest in stocks across different market capitalization. The scheme would therefore contain a blend of large, mid and small cap stocks. The allocation to the different market caps would vary from time to time depending on the overall market conditions, market opportunities and the fund manager's view.

International Investment Strategy:

The international portion of the portfolio would be managed with the following objectives:

- Invest in countries that have a low correlation with the Indian Economy.
- Invest in countries that have strong and stable economy.
- Choose sectors and segments that are posting strong growth in these countries.
- Choose stocks in these countries that have strong market presence and have high potential for growth.

While the Scheme is not restricting itself to the number of countries that it can invest in, the portfolio would primarily have a blend of U.S., European and Asian stocks.

The percentage exposure to any country, sector or stock would be determined by the fund manager, based on macro-economic, sector as well as company specific factors. At all times, the intention would be to achieve higher risk control and maximize returns. The stock selection strategy under the Plans would be a blend of top down and bottom up approach without any sector or market capitalization bias. All companies selected will be analyzed taking into account the business fundamentals like nature and stability of business, prospects of future growth and scalability, financial discipline and returns, valuations in relation to broad market and expected growth in earnings, the company's financial strength and track record. BSLAMC has tied up with Standard & Poor's Investment Advisory Services LLC (SPIAS) for seeking portfolio advice on the international portion of the fund's portfolio. SPIAS is a division of Standard & Poor's and has a long track record in providing investment advisory services to institutional clients. The fees related to these services would be borne by BSLAMC and would not be charged to the scheme. SPIAS, as part of this arrangement, would create a model portfolio for BSLAMC using their proprietary methodologies. This model portfolio would be used for creation of the international portfolio of the scheme. The fund management of the Scheme (including the international portion) shall rest with Birla Sun Life Asset Management Company Ltd.

As one of their proprietary methodologies for portfolio construction, SPIAS would use the renowned STARS ranking system of Standard & Poor's. 'STARS' stand for STock Appreciation and Ranking System, and is being used for ranking stocks across various parts of the world including U.S., Europe as well as Asia. The STARS system was started in the year 1987 and has more than 20-years of track record

Birla Sun Life Special Situations Fund

The objective of the Scheme is to generate long-term growth of capital by investing in a portfolio of equity and equity related securities. The Scheme would follow an investment strategy that would take advantage of Special Situations and Contrarian investment style. Special Situations: Special situations are out of the ordinary situations that companies find themselves in from time to time. Such situations present an investment opportunity to Fund Manager who can judge the implications of that opportunity that can unlock value for investors. There could be many such situations that may have the potential to unlock value of the companies. Some of these situations are-

1. De-Mergers: Corporate actions often unlock a lot of value for the investors. Demergers may result in separation / spin-off of business operation / activity from some other business operation / activity. There may be unlocking of value for an investor.
2. Mergers: Merger of businesses or companies may result in synergies business activities. This may result in value unlocking for the companies getting merged.
3. Debt Structuring: There may be corporates that have higher debt on their balance sheets resulting in lower profitability and cash flows. The cost of debt may also be high resulting in reduced profitability. Any attempt by the corporates to either reduce the debt burden or swap the existing debt with lower cost options may result in value unlocking.
4. Buy-Back: Companies may consider a buy-back of their shares from the market due to various reasons like - company has substantial free reserves, management is confident of the future growth potential, meeting with the regulatory norms, etc. These events may lead to value unlocking for the company.
5. Other Situations: There could be many other events that may result in share price appreciation. Situations like introduction of new products, new segments, acquisition of new customers, R&D related developments, management re-structuring, capital infusion, revaluation of Fixed Assets, Properties or other assets, etc. might result in a favorable environment for stock price appreciation. The scheme intends to carefully look at such special situations and participate in them based on the potential for stock appreciation.

Contrarian Investing: Strategy would comprise of investing in companies that are currently out of favor, overlooked or neglected due to temporary fallacies like poor results, failure with regards to the product launch, factor affecting the industry, political interventions, etc. However, these companies may be fundamentally strong but market may have failed to recognize their true potential. The Scheme may invest in such undervalued companies to take advantage of price appreciation. Investment strategy would be to identify stocks based on the above mentioned criteria and benefit from the event. These events may or may not be time bound. Investment strategies would include but not be limited to the above-mentioned strategies. Scheme will be a style diversifier for an investor. The aforesaid investment strategy will also be adopted for investments if made in foreign securities. The Scheme would follow a bottom-up investment approach, where investments will be selected based on specific criteria relevant to the company. There will be no bias towards size or sectors. Companies selected will be analyzed taking into account the business fundamentals like nature, stability of business, prospects of future growth and scalability, financial discipline and returns, valuations in relation to broad market and expected growth in earnings, the company's financial strength and track record, etc.

Birla Sun Life Commodity Equities Fund

The objective of the fund is to offer long term growth of capital, by investing in (1) stocks of commodity companies, i.e., companies engaged in or focusing on the specified commodity business and/or (2) overseas mutual fund scheme(s) that have similar investment objectives. These securities could be issued in India or overseas.

Birla Sun Life Commodity Equities Fund will have following plans each with a segregated portfolio.

Birla Sun Life Commodity Equities Fund – Global Precious Metals Plan.

Birla Sun Life Commodity Equities Fund – Global Precious Metals Plan will predominantly invest in overseas companies or overseas mutual funds investing in companies that have business exposure to various precious metals. A typical universe could include producers of gold and related products, including companies that mine or process gold and the South African finance houses which primarily invest in, but do not operate, gold mines. The Fund may invest in companies that are mining precious metals and minerals like platinum.

Birla Sun Life Commodity Equities Fund – Global Agri Plan

Birla Sun Life Commodity Equities Fund – Global Agri Plan will predominantly invest in overseas companies or overseas

mutual funds investing in companies that have business exposure to agricultural commodities. Such companies could include producers of agricultural products, crop growers, owners of plantations, companies that produce and process foods, fertilizer producing companies etc.

Birla Sun Life Commodity Equities Fund – Global Multi Commodity Plan

Birla Sun Life Commodity Equities Fund – Global Multi Commodity Plan will predominantly invest in overseas companies or overseas mutual funds investing in companies that have business exposure to various commodities like Energy, precious metals, industrial metals, water and agricultural commodities.

The Scheme will primarily focus on opportunities prevailing in each of the commodities. Fund manager will undertake an active investment management strategy. Investment in stocks will be based on a bottom up approach. There will be no market capitalization or geographic bias. The Scheme may also undertake active cash calls if the situation so warrants. The scheme may adopt a quantitative approach to build a portfolio. While using a quantitative model, the fund would analyse multiple fundamental and technical factors like price momentum, earnings momentum, broker recommendations, correlation with underlying commodities, valuation, liquidity etc. While the quant model would be used to generate a model portfolio, the fund manager would have the discretion to change the portfolio selection and assigning portfolio weights. Further, the Scheme may invest in units issued by overseas mutual funds. Such investment in the funds will not be more than 35% of the portfolio value. The selection of an overseas mutual fund will be based on parameters like:

- Appropriateness of the Fund, with regard to the Schemes investment objective,
- Track record of the Fund under consideration,
- Reputation of the Fund which has launched the Scheme, etc.

Global Multi Commodity Plan will adopt a tactical approach towards selecting a mix of commodities segments. Once the allocation to each commodity is determined, the plan may invest either in other plans of this Scheme or may invest in companies / Funds directly.

Scheme may utilize services of independent research agency for making investment in foreign securities / Funds. Though every endeavor will be made to achieve the specified objectives, the AMC / Trustees / Sponsors do no guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

Birla Sun Life Enhanced Arbitrage Fund

Scheme seeks to generate income by predominantly investing in equity and equity linked instruments.

Scheme aims to identify the price differentials prevailing for a stock / index in 2 market segments (cash, futures, etc). Trades are executed once the price differentials are identified. Generally, trades will be executed provided that they generate returns higher than short term debt instruments (call money, money market instruments, liquid schemes, etc) net of expenses.

Scheme will buy a stock where it is available cheap and sell the stock where it is quoting at a higher price. Simultaneous buy and sell trade will be entered into in both the market segments (Cash & Futures). Gains that the trade would offer, is identified at the time of execution. On expiry of the futures contract, there is a convergence of price of a stock in cash & derivatives segment. Thus gains are secured / assured irrespective of the market movements, only at the end of the month i.e. on expiry of the futures contract. If these trades are unwound prior to expiry, then they may / may not generate the pre-specified returns.

The scheme shall also undertake Securities Lending and Borrowing within the framework as permitted by SEBI.

However, if these trades fail to exist / if the returns generated are lower than that offered by liquid schemes / index, then the scheme may undertake a higher allocation to debt and money market securities.

A portion of the corpus will also be invested in direct equities, IPO's, Options, open offer and buy-back. Allocation to these strategies will be restricted to the extent of 10% of the corpus size.

Birla Sun Life India Reforms Fund

Scheme seeks to generate income by predominantly investing in equity and equity linked instruments.

The scheme would seek to invest in companies that are expected to benefit from the government reforms program. These companies would encompass, but not be limited to, engineering, real estate & construction, power, telecom, infrastructure, financial services, Fertilizers, agrochemicals, irrigation, education and select commodity sectors. Investments will be pursued in selected sectors based on the Investment team's analysis of business cycles, regulatory reforms, competitive advantage etc. Selective stock picking will be done from these sectors. The fund manager in selecting scrips will focus on the fundamentals of the business, the industry structure, the quality of management, sensitivity to economic factors, the financial strength of the company and the key earnings drivers. The scheme will invest across sectors without any market cap or sectoral bias. For further details on Derivatives strategies and Investment strategy under the scheme, please refer to Scheme Information Document.

Birla Sun Life Pure Value Fund:

The fund would follow a value investing strategy for the management of its portfolio.

Value investing is buying into stocks that are trading for less than their intrinsic value - stocks that the market is undervaluing. Typical value investing strategies include, strategies like

- Buying stocks with a low price to book value,
- Low price to cash flow,
- Low price/earnings multiple, and high dividend yields,
- Asset Replacement,
- Dividend Yield higher than the G-Sec yield,
- Valuation mismatch due to invisible/undervalued assets (Land, Licenses, Brands, Trademarks, Patents etc.)
- Situations wherein the value of the Company would be unlocked due to:
 - Mergers and Acquisition activities
 - Restructuring
 - Recovery potential
 - Retained earnings

Value Investing is similar but not the same as contrarian investing. The key difference between contrarian investing and Value Investing is that in latter there is a gap between underlying value of the company asset, earnings or holding value) and the market perception of the same. In case of contrarian investing, the stock is out of favor and is trading at a valuation lower than its recent past and not necessarily at a discount to its inherent value.

Key underlying assumption in Value Investing is that markets are inefficient and over a period of time the market will discover and find the right value for the stock.

Value strategy, is a conservative way of investing in Equities. The primary reason is that these stocks are already available at a substantial discount relative to the general market levels. As such the downside in such stocks is relatively lesser.

The value strategy, while being a blend of Top down and Bottoms up, essentially focuses on companies with long track records and excellent managements. As such the probability of these companies to improve their fundamentals with changing business dynamics is relatively strong.

Buying Approach

Through fundamental analysis, business underlying the security is assessed vis-à-vis its intrinsic value. Some of the factors that are studied are

- Financial Statements of the Company's
- Position in the earnings cycle
- Competitive position, and management quality.

In addition, we will focus on long-term and cyclical industry trends in order to identify and measure the risks associated with a Company's business. By taking a disciplined approach to security selection, portfolios can yield good long-term total returns. Once a stock is identified as relatively undervalued, the Fund Manager performs additional Fundamental Analysis to determine if there is a sufficient catalysts available to unlock the hidden value within reasonable time. The strategy is broadly diversified across all sectors and not just invested in out-of-favor value sectors

Selling Approach

Stocks bought in Value Investing will be sold when stock appreciates to target price without commensurate increase in intrinsic value. However, if the anticipated catalyst(s) fails to happen within a reasonable period, or an unanticipated event, change in fundamentals, or deterioration in intrinsic value negating original reason for investment then also the stock will be sold.

Birla Sun Life Small & Midcap Fund

The corpus of the Scheme will be primarily invested in Small and Mid Cap equity and equity related securities of the companies in the small and midcap segment that have a potential to appreciate in the long run. The Scheme may also invest a small portion of its corpus in fixed income securities including money market instruments to manage its liquidity requirements. The fund manager will select equity securities on a bottom-up stock selection approach. Under bottom-up approach, the main focus is on identifying stocks on their individual merits irrespective of the sectors to which they belong as opposed to first identifying sectors and then choosing stocks within that sectors which is followed under top-down approach. Hence, under bottom-up approach among other things, consideration will be given to fundamentals of the companies, management quality & strength of their businesses.

Apart from sound fundamentals and management, the fund would lay emphasis on valuations and long term growth potential. The stocks of small and midcap companies are generally more volatile and less liquid than the large cap stocks. The focus would be on long-term fundamentally driven values. However, short-term opportunities would also be seized, provided they are supported by underlying values. As part of the investment strategy, fund will book profits regularly to take advantage of the volatility in the market.

Birla Sun Life Asset Allocation Fund

The Scheme will invest in Equity and Debt schemes in the pre-specified range of the respective plan. The investments will be made in a judicious mix of equity and debt mutual fund schemes.

Across the basket of equity schemes, funds will be allocated depending on the fund manager's perception of the outlook of

INVESTMENT STRATEGY

various equity schemes and the risk profile of the plan. For instance, in the Aggressive Plan, the Fund Manager will endeavor to assign a higher weightage to aggressive growth and sector specific schemes.

The allocation amongst the underlying debt schemes is decided dynamically based on the fund manager's view on interest rates. Therefore, the Fund Manager may decide to invest only in a few debt schemes and not all, at a particular time to alter the average maturity of the portfolio or may invest just in Birla Sun Life Cash Plus in periods of uncertainty to hedge against volatility.

Based on the above asset allocation, it is expected that the Beta of the Aggressive Plan would be higher than the beta of the Moderate and Conservative Plans. The Conservative Plan is expected to have the lowest beta among these three plans. The Fund Manager also reserves the right to invest upto 30% of the assets of each of the plans in schemes of other mutual funds from time to time.

Birla Sun Life Freedom Fund

Stock Selection Strategy: The schemes would adopt a bottom-up approach to investing. The investment emphasis of the schemes will be in identifying companies with a strong competitive position in good businesses, and having quality managements. Essentially, the focus would be on long term fundamentally driven values. The fixed income investment strategy would emphasise investment in instruments that generate consistently superior yields at low levels of risk.

Birla Sun Life '95 Fund

The fund manager would primarily focus on long term growth for identifying stocks. The objective would be to identify business with superior growth prospects and strong management available at reasonable valuation and offering higher risk adjusted returns. The fund would follow blend of bottoms up approach (for stock selection) and top down approach (for sector allocation). The fund would follow flexi cap approach on market cap depending on risk return profile of various sub segments of the market. The decision to sell would be based on price reaching its fair value or availability of alternative investment opportunity offering higher risk adjusted returns or anticipated price appreciation no longer possible due to change in business fundamental.

Birla Sun Life MIP

Stock Selection Strategy: The scheme would adopt a bottom-up approach to investing. The investment emphasis of the scheme will be in identifying companies with a strong competitive position in good businesses, and having quality managements. Essentially, the focus would be on long term fundamentally driven values. The fixed income investment strategy would emphasise investment in instruments that generate consistently superior yields at low levels of risk.

Birla Sun Life MIP II

The Scheme invests in Debt and Money Market Instruments and would seek to generate regular returns. The scheme also invests a portion of its assets in equity and equity related instruments to seek capital appreciation. The Scheme does not assure any returns.

As per the asset allocation pattern indicated above, the Fund invests in various debt securities and money market instruments issued by corporates and/or state and central government. With the aim of controlling risks, rigorous in-depth credit evaluation of the instruments proposed to be invested in is carried out by the Investment Team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as long-term financial health of the issuer. The AMC is also guided by the ratings of rating agencies such as CRISIL, CARE and ICRA or any other rating agency as approved by the regulators.

In addition, the Investment Team of the AMC studies the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

A top down and bottom up approach is being used to invest in equity and equity related instruments. Investments are pursued in select sectors based on the Investment Team's analysis of business cycles, regulatory reforms, competitive advantage etc. Selective stock picking will be done from these sectors. The fund manager in selecting scrips focuses on the fundamentals of the business, the industry structure, the quality of management, sensitivity to economic factors, the financial strength of the company and the key earnings drivers.

The Scheme may invest in other Scheme(s) managed by the AMC or in the schemes of any other Mutual Fund, provided it is in conformity with the investment objectives of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

Birla Sun Life Monthly Income

The fund manager would primarily focus on long term growth for identifying stocks. The objective would be to identify business with superior growth prospects and strong management available at reasonable valuation and offering higher risk adjusted returns. The fund would follow blend of bottoms up approach (for stock selection) and top down approach (for sector allocation). The fund would follow flexi cap approach on market cap depending on risk return profile of various sub segments of the market. The decision to sell would be based on price reaching its fair value or availability of alternative investment opportunity offering higher risk adjusted returns or anticipated price appreciation no longer possible due to change in business fundamental.

Birla Sun Life Income Plus

As the Scheme is an income scheme, the investment strategy will reflect the relatively conservative character of the portfolio. The fixed income investment strategy would emphasize investment in instruments that generate consistently superior yields at low levels of risk. Rigorous in-depth credit evaluation and analysis aimed at ascertaining both the short term financial health and long term solvency of the debt issuers will be carried out by BSLAMC's research team. In addition, criteria such as sound corporate managements, prospects of good future growth and strong past performance will be considered. Essentially, the focus would be on long term fundamentally driven values. However, short term opportunities would also be seized, provided they are supported by underlying values.

Birla Sun Life Income Fund

The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. As per the asset allocation pattern, the Fund invests in various debt securities and money market instruments issued by corporates and/or state and central government. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as long-term financial health of the issuer. The AMC is also guided by the ratings of rating agencies such as CRISIL, CARE and ICRA or any other rating agency as approved by the regulators.

In addition, the Investment Team of the AMC studies the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC use this analysis to attempt to predict the likely direction of interest rates and position the portfolio

Birla Sun Life Gilt Plus

- Liquidity Support from RBI
- Being a scheme dedicated exclusively to investments in Government Securities, Birla Gilt Plus will be eligible to avail, on any day, from RBI, liquidity support upto 20% of the outstanding value of its investments in government securities (as at the close of the business on the previous business day), under its guidelines issued vide circular IDMC 2741/03.01.00/95-96, dated April 20, 1996. Liquidity support under these guidelines is available to reverse repurchase agreements in eligible Central/State government dated securities and Treasury Bills for all maturities.
- Repos / Reverse Repos

The Scheme may undertake Repos / Reverse Repos as per the guidelines released by SEBI / RBI and subsequent modifications thereto.

Birla Sun Life Government Securities Fund

"A portfolio invested in GSecs or state government securities is normally associated with an investment strategy in the debt markets that is free of credit risk (i.e. the risk of default by the issuer). Investments may also be made in the call market or in an alternative investment to the call market as may be directed by the RBI. Income may be generated through the receipt of coupon payments, the amortization of the discount on debt instruments or the purchase and sale of securities in the underlying portfolio.

The portfolios of the plans may differ in the portfolio allocation to a particular asset class and the issue held as well as in the duration of each portfolio. The Short Term Plan will be managed to maximum rupee weighted duration of three years while the Long Term Plan will be managed to maximum rupee weighted duration of seven years. Each of these investment plans will, under normal market conditions, invest its net assets as per the asset allocation hereunder. The Fund Manager will review the portfolio for adherence with the above rupee weighted duration norms and rebalance the same within 30 days to conform to the above limits.

It is the intention of the Scheme to avail itself of the liquidity support from the RBI extended to mutual funds dedicated to investments in government securities via circular IDMC.No.2741/03.01.00/95-96 dated April 20, 1996 as amended from time to time.

Further, non-Government Provident Funds, Superannuation Funds, Gratuity Funds and Pension Funds through its investments in government securities may invest in the Scheme.

Birla Sun Life Dynamic Bond Fund

The investment objective of this Scheme is to optimise returns for the investors by designing a portfolio, which will dynamically track interest rate movements in the short term by reducing duration in a rising rate environment while increasing duration in a falling interest rate environment. The investment strategy would revolve around structuring the portfolio so as to capture positive price movements and minimise the impact of adverse price movements.

Since active debt management strategies require an in depth knowledge of and ability to accurately track interest rate movements taking into account various micro and macro factors, it is difficult for an individual investor to adopt such a strategy. Whereas, the investment team of Birla Sun Life Mutual Fund, through its research and process driven investment strategy, would endeavour to capitalise on the available opportunities in a timely manner. The fund would seek to fulfill the needs of a large number of individual, HNIs as well as large institutional investors who are susceptible to interest rate risks. In order to maximise returns the fund managers may look at curve spreads both on the gilt as well as the corporate bond markets to gain maximum value out of any security/s.

Birla Sun Life Short Term Opportunities Fund

The fund focuses on enhancing the portfolio returns by identifying mispriced credit opportunities in the market and selectively investing in them. To enhance the portfolio returns, the Fund would invest in instruments that offer superior yield at acceptable levels of risk. To manage the credit risk, the Fund would invest predominantly in short and medium term securities. Moreover, the Fund has put in place a strong rigorous process to evaluate credit risk and monitor the same on a continuous basis. The Fund will also emphasise collaterals/covenants where it believes it is required. If and when the Mutual Funds are allowed to invest in credit derivatives, the Fund will also invest in such securities, in line with extent of the regulations. The potential universe of the scheme for investment includes (but is not limited to) securities issued by NBFCs, ABS, Corporate Debt, Financial Institutions and Banking Sector Bonds & Treasury Bills, Govt. Of India Securities, State Government Bonds, Government Guaranteed Bonds, PSU Bonds, money market securities, Call Money, Commercial Paper, Certificate of Deposit & Discounted trade Bills.

Birla Sun Life Savings Fund

Stock Selection Strategy : The investment emphasis of the scheme will be in identifying companies with a strong competitive position in good businesses, and having quality managements. The investment strategy would emphasise investment in instruments that generate consistently superior yields at low levels of risk.

Investment Securities

To achieve the scheme objective, the scheme will invest in a wide range of instruments including: Government of India Securities:

- Obligations of Public Sector Undertakings (PSUs) including bonds, debentures and certificates of deposit.
- Obligations of domestic public and private sector banks, and development financial institutions including bonds, debentures and certificates of deposit.
- Obligations of domestic corporations, including bonds, debentures, non-convertible portion of convertible debentures, securitized debt and promissory notes, pass-through obligations, commercial paper and structured obligations.
- Call money, fixed deposits of domestic banks or corporations, and other money market instruments, as permitted by SEBI.
- Other domestic instruments, listed or unlisted, as may be offered in the domestic market and permitted by SEBI.
- Derivatives and other investments permitted by regulations from time to time.

Within the defined asset allocation parameters, there are many ways in which a portfolio can be constructed. Any specific asset allocation will be made keeping in mind the contemporary realities in the economy, financial system, investment as well as investor outlook.

Given the nature of the scheme, liquidity would be a key driver in the construction of the portfolio. The scheme may review the above pattern of investments based on views on interest rates and asset liability management needs. From time to time, it is possible that the portfolio may hold cash. However, at all times the portfolio will adhere to the overall investment allocation pattern as specified earlier.

Birla Sun Life Ultra Short Term Fund

The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. As per the asset allocation pattern, the Fund invests in various debt securities and money market instruments issued by corporates and/or state and central government. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as long-term financial health of the issuer. The AMC is also guided by the ratings of rating agencies such as CRISIL, CARE and ICRA or any other rating agency as approved by the regulators.

In addition, the Investment Team of the AMC studies the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC use this analysis to attempt to predict the likely direction of interest rates and position the portfolio.

Birla Sun Life Floating Rate Fund

Floating rate debt issuance is a relatively new concept in India and has grown rapidly with the introduction and wide acceptance of benchmarks such as NSE MIBOR / Reuters MIBOR etc. The Government of India has also started issuing floating rate sovereign debt which is expected to give a major impetus to the pace of development of floating rate market in India. The scheme proposes to invest substantially in floating interest rate securities, fixed interest rate securities swapped for floating rate returns and fixed rate securities. The aim of the investment strategy is to generate stable returns by minimizing the interest rate risk in the short as well as long term.

The domestic debt markets are maturing rapidly with improvement in liquidity in various debt segments as a result of introduction of new instruments and investors. The development of derivatives markets particularly swaps and Forward Rate Agreements (FRA) have made the environment more dynamic and has provided opportunity to manage interest rate more actively.

The aim of the investment manager will be to allocate the assets of the scheme between various fixed interest rate securities and floating interest rate securities and use derivatives like swaps and FRAs effectively with the objective of achieving stable returns. The portfolio of the Short Term Plan will normally be skewed towards short term maturities with higher liquidity and the portfolio of the Long Term Plan will be normally skewed towards longer term maturities.

The scheme will endeavour to minimise interest rate risk. Fixed interest rate securities are subjected to volatility in price movements corresponding to movements in interest rates. However, the interest rate in case of floating rate securities is reset in regular time intervals based on certain benchmark or a reference rate (eg. NSE Mibor, T Bill Yield, Reuters MIBOR, etc.). Hence the prices of these securities are less sensitive to interest rate fluctuation leading to minimal interest rate risk in case of floating interest rate securities.

Floating interest rate securities market in India is in a developing phase. Government of India has started issuing Government securities carrying floating rate coupon payments. This will help the floating rate market to develop rapidly. A large number of corporates borrow their short term requirements and funds through floating rate instruments. However, as the markets develop corporates would start accessing the market for their long term requirement of funds at a floating rate. In the absence of floating rate securities, the same can be created synthetically with a combination of derivatives like Interest Rate Swaps and FRAs and fixed interest rate securities. The fixed income derivatives market has developed considerably during the last 2 years in India. The scheme intends to use derivatives as permitted by RBI/SEBI for hedging interest rate risk.

The actual percentage of investments in various floating and fixed interest rate securities and position of derivatives will be decided after considering the prevailing political conditions, economic environment (including interest rates and inflation), the performance of the corporate sector and general liquidity as well as other considerations in the economy and markets.

Birla Sun Life Cash Manager

The aim of the investment strategy is to provide stable returns by minimizing the interest rate risk in the short as well as long term. The Scheme aims to identify securities, which offer superior levels of yield at lower levels of risks. Liquidity will also be an important criterion and a reasonable proportion of the investment will be made in relatively liquid investments. In addition, the Fund Management team will study the macro economic conditions affecting liquidity and interest rates. The Fund Manager would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Birla Sun Life Medium Term Plan

The Fund intends to optimise returns by keeping its portfolio duration between 1 year to 5 years. Depending upon prevailing market conditions & interest rate scenario the duration may be brought down below 1 year. In case of a rising interest rate environment the duration of the fund may be reduced and holding in money market securities could go up to 100% whereas in a falling interest rate scenario the holding in medium / long-dated securities may be maximized.

RISK CONTROL

Birla Sun Life Advantage Fund

Since investing requires disciplined risk management; in order to protect the interest of investors, Birla Sunlife AMC would incorporate adequate safeguards for controlling risks in the portfolio. As a prudent measure, Birla Sunlife AMC has broad internal investment norms and investments made by the scheme would be in accordance with the investment objectives of the scheme and provisions of SEBI Regulations. Where required, Scheme specific guidelines are also in place. The risk control process involves reducing risks through portfolio diversification.

The Investment Committee is an overseeing body for the performance and the risk indicators of the portfolios of the respective Schemes.

Rigorous in depth credit evaluation of the issuers proposed to be invested, will be conducted by the Investment team. As part of credit evaluation, a study on the operating environment, past track record as well as future prospects of the issuer, short as well as long term financial health of the issuer. Birla Sunlife AMC will be guided by the ratings of accredited agencies such as CRISIL, CARE, ICRA etc and the internal credit policy which defines the norms for credit exposure and the approval authorisation matrix.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

Birla Sun Life Dividend Yield Plus

The overall portfolio structuring would aim at controlling risk at a moderate level. Both very aggressive and very defensive postures would be avoided. Stock-specific risk will be minimised by investing only in those companies that have been thoroughly researched by BSLAMC's research team. Risk will also be managed through broad diversification of the portfolio within the framework of the above mentioned investment objective and policies. Macroeconomic risk will be addressed through focused and ongoing review of relevant business and economic environment. All efforts will be made to protect the NAV of the scheme and the interest of the unit holders.

Liquidity will be a very important consideration for investment decisions, due to the potential of large redemptions inherent in open ended schemes. As a result, a reasonable proportion of the scheme's investments will be made in relatively liquid investments.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

Birla Sun Life Midcap Fund

There are internal investment restrictions on individual stock exposure limits and there are sector exposure limits [only applicable to general equity funds]. Also there are restrictions on level of exposure to IPOs, private placements and small companies [defined as historical turnover of less than ₹ 50 crores p.a.]. In case of Birla Sun Life Midcap Fund, under normal circumstances, the fund would be investing in at least 20 companies and at least six sectors with a maximum exposure of 25% to each sector. However, the AMC reserves the right to modify this strategy from time to time and the changes would be informed to the unitholders in the next newsletter. While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

Birla Sun Life MNC Fund

The investment emphasis of the Scheme would be on identifying companies with sound corporate managements and prospects of good future growth. A track record of superior performance and corporate governance will be added considerations. Essentially, the focus would be on stocks driven by long term fundamentals. However, short-term opportunities would also be seized, provided underlying values supports these opportunities.

Liquidity will be very important consideration for investment decisions, due to the potential of large redemptions inherent in open-ended schemes. As a result, a significant proportion of the Scheme's equity investments will be made in relatively liquid large capitalization stocks, including established blue-chips and emerging blue-chip stocks. In addition, as far as supported by liquidity considerations, investments in small and medium capitalization growth stocks will also be emphasized in expectation of higher returns. A portion of the funds will also be invested in IPOs and other primary market offerings that meet our investment criteria.

Birla Sun Life India Opportunities Fund

In order to control the portfolio risk, the scheme would adhere to internal investment restrictions on sectoral exposure. Considering the unique nature of the scheme, exposure to IT and IT related companies would be limited to a maximum of 50% of the net assets. All other sectors would not individually exceed 30% of net assets Limits. The AMC would adhere to the 10% limit on exposure to individual stocks.

The AMC reserves the right to modify the internal restrictions from time to time and the changes would be informed to the unitholders in the next newsletter.

While these measures are expected to mitigate the concentration risks, there can be no assurance that other forms of risks would be completely eliminated from these measures.

- Death within 45 days from the commencement of SIP installments under BSL Life Stage Plan except for death due to accident
- Death due to pre-existing illness, disease(s) or accident which has occurred prior to commencement of SIP installments under BSL Life Stage Plan

14. OTHER TERMS AND CONDITIONS:

- The Group Life Insurance Cover will be governed by the terms, conditions & exclusion of the insurance policy with the relevant Insurance Company as determined by the AMC.
- Grant of insurance cover to any individual member shall be discretionary on part of Life Insurance Company.
- In case of death of the first unit holder, his / her legal representatives may file a claim directly with the designated branch of the Insurance Company supported by all relevant documents as required by the Insurer and the payment of the claim may be made to the legal representatives by the insurance company. All insurance claims will be settled in India and shall be payable in Indian Rupees only. Settlement procedure will be as stipulated by the Insurance Company. Insurance claims will be directly settled by the Insurance Company. There will be only one insurance cover linked to unique investor. This offer from the Insurance Company (with whom the AMC ties up) is being brought to the investors of the Scheme by the AMC on a best effort basis. The AMC will not be responsible or liable for maintaining service levels and/or any delay in processing claims arising out of this facility.
- The Mutual Fund, Trustees, AMC, or their Directors, officers or employees shall not be liable for any claims (including but not limited to rejection of any claim, non-settlement, delays etc.) arising out of the insurance cover provided to the unit holder. The Fund is bringing this offer to the investors of the Scheme only as an additional facility and is not acting as an agent for marketing/sales of insurance policies.
- Subject to what has been stated above, the AMC reserves a right to modify / annul the said Group Insurance Cover on a prospective basis. The AMC also reserves the right to change the insurance company from time to time.
- BSLAMC reserves the right to reject the application if the investor does not meet the eligibility criteria for insurance cover
- Charges of the insurance cover will be entirely borne by the AMC.
- Investors opting for BSL Life Stage Plan agree and confirm to have read, understood and accepted the Terms of BSL Life Stage Plan and Insurance cover.
- A new folio will be created in this facility even for existing customers. Other regular/fresh purchases will not be allowed in this folio, and they will be maintained separately. Consolidation of folios will not be allowed.
- Insurance is subject matter of solicitation.

THE REGISTRAR

Tax Savings Solutions

What are Tax Savings Solutions?

Our Tax Savings Solutions help to reduce your tax burden and at the same time, aim to grow your money through equity investments.

Who can benefit from Tax Savings Solutions?

Tax saving is important, especially when investors can save up to ₹ 30,900 in taxes! Section 80C of the Income Tax Act, 1961 provides options to save tax by reducing the taxable income by up to ₹ 1 lakh.

But, wealth creation is also important. Isn't it? That's why these solutions are ideal for investors who would like to create wealth along with tax saving.

Tax savings of ₹ 30,900 is calculated assuming qualifying amount of deduction is ₹ 1 lakh & investor falls in the top income tax slab of 30% & includes applicable cess. Investors are advised to consult their tax advisor in view of individual nature of tax benefits.
